PICKCEL

PRODUCT CATALOGUE APP

Showcase an array of merchandise on your digital signage & add more to the shopping experience.

Customizable catalogue templates

Get attractive templates. Add product images, product descriptions, prices & discounts. Update the details instantaneously!

Show product price is any currency

Wherever in the world your business is, the Pickcel app lets you show your prices in the accepted currency.

QR codes for mobile-accessibility

The Pickcel app lets you embed a QR code into your product catalogue. Customers can scan this code from your digital screens to access the catalogue on their mobile phones & tablets. Add your social media links, website url and business whatsapp number so that mobile viewers can interact with you online.
Flexible screen layouts

No hassle of manually resizing your catalogue to suit your display orientation. Just add your product image and details and choose your display orientation (portrait/landscape), our app will auto-fit your catalogue.

Create a playlist

Showcase unlimited number of products on your digital signage with our playlist feature. Set your preferred slide duration.
